**Cloud:** EC2, Lambda, ECS, Docker, Kubernetes, Linux, Networking, ClouFormation, CDK, EventBridge, SNS, SQS, Step Functions, SWF, Amplify, API Gateway, CloudFront, Route 53, DMS, Prometheus, Grafana

**Databases/Storage:** DynamoDB, RDS, PostgreSQL, Amazon Timestream, Redis, S3, EFS, MongoDB

**Big Data/Data Analytics:** PySpark, AWS Glue, QuickSight, Athena, EMR, Amazon SageMaker, Tableau

## EXPERIENCE

### Amazon Web Services, Dublin, Ireland

System's Development Engineer, Mar 2020 - Present

- Automated internal compute capacity deployment, reducing manual setup steps by 90% and reduced time to build new regions by 30% globally.
- Maintained a high-scale internal workflow engine handling hundreds of thousands of network devices daily to auto-remediate and auto-mitigate network events on every AWS regions.
- Created system to automatically prioritize tickets based on network impact, reducing in 20% the number of large scale events that impact external customers.
- Reduced infrastructure costs 20% by optimizing usage for internal teams. Forecasted and tracked future usage to stay under budget.

### Pantacor, London, UK

Software Engineer, Feb 2019 - Mar 2020

- Developed an IoT fleet management and deployment platform for enterprise customers for hundreds of customers in Europe.
- Implemented monitoring, logging, and tracing for microservices, improving incident response time in 30%.
- Managed Kubernetes clusters across cloud providers, increasing reliability and scalability while optimizing costs.

### Eventials, Blumenau, Brazil

System's Analyst, Jul 2018 - Feb 2019

- Designed and deployed embedded Linux application for ultrasound live streaming to dozens of hospitals and clinics.
- Developed integrations to enterprise customers to increase leads in 20% Year-over-Year.
- Architected and executed strategic migration from legacy monolith to microservices, increasing feature delivery speed.

### Bludata Software, Blumenau, Brazil

Software and Web Developer, Sep 2014 - Jul 2018

### Pomerplast, Pomerode, Brazil

Software Developer, Feb 2010 - Sep 2014

## EDUCATION

### **Master of Business Administration (M.B.A.) - Software Engineering**

XP Educação, Belo Horizonte, Brazil, Jun 2018 - Oct 2020

### **Bachelor's Degree - Computer Sciences**

FURB - Fundação Universidade Regional de Blumenau, Blumenau, Brazil, Jan 2010 - Jan 2015

### **[Google Data Analytics Professional Certificate](#)**

Google, May 2023 - Oct 2023

## HONORS & AWARDS

### **Ownership Award (2022) - Amazon Web Services**

As recognition for demonstrating ownership and deliver ahead of expectation to our customers in AWS.

### **Startup Accepted for Incubation (2014) - *Instituto Gene***

Project "Eplus" accepted for incubation as a startup, with the goal of democratizing access to high-quality study materials and improving the ability of educators and learners to find necessary resources.
